

Cool Down

Target:

Get to know:

- Functions and lambda expression in python
- Errors and Exceptions in python
- Operations of file
- Importing in python

Resources:

- 1) [Udacity](#) Python course [Lesson 5, 6] – [All of the targets are covered here]

What To do:

- After watching above videos, Take your notes either hardcopy or softcopy as you prefer. [Highly important] – **MANDATORY**
- Solve the problems below this file. [**DO NOT** import any libraries]
- Upload a Task 2 - {name}.pdf file that contains your notes beside your problems to your GitHub repo.
 *Note: name = last name (for males) #ex: Task 2 – Elsherbiny.pdf
 name = first name (for girls) #ex: Task 2 – Mona.pdf

Evaluation:

Problems 2, 5: 1 point.

Problems 1: 2 points

Problems 3, 4: 3 points

Deadline:

4 Days #Thursday 9 Feb at 23:59
